Abstract Format and Preparation for the Workshop on Nonstationarity, Hydrologic Frequency Analysis, and Water Management

Paper Title

I. M. Author,¹ and C. O. Author²

¹Hydrologic Technician, USGS Hard Knocks WSC, P.O. Box 98765, City, ST 99999-1111; PH (666) 911-1234; email: imauthor@esu.edu
²Hydrologist (P.E.), USGS Xanadu WSC, Mail Stop LC 777, 2233 Utopia Avenue, Township, ST 88888; PH (999) 777-6666; email: co.author@usgs.gov

Abstract

Point size and font. Use Times Roman 12 point type for text, captions, and author contact information. For the title use 18 point size. *Italics, bold, and bold italics* may be used if appropriate.

Abstract. Your extended abstract should be no more than two pages. The abstract should present a statement of the scope, principal findings, and conclusions of the presentation.

Headers and footers. Do not put any information in the header or footer.

Layout. All text must be single-spaced. Page design should be consistent throughout the abstract. Margins should be set as follows: top and bottom – 1 inch; left and right – 1.375 inch.

Approvals. It is the author’s responsibility to obtain all necessary approvals from the author’s supervisor prior to submission of the abstract. Once an abstract has been uploaded, reviewed by the author, and officially submitted, it is not possible to edit the document.

Abstracts will be submitted to Reagan.waskom@colostate.edu in Microsoft Word.

**********

With thanks for your efforts, we look forward to providing an on-line and printed proceedings of this conference that will be useful to you and your colleagues. Please direct any questions to Reagan Waskom at the email address above.
